Apps with free trials

Discover new ways to build better—now with a free 14-day trial.

[Travis CI](#)
Test and deploy with confidence

[AccessLint](#)
Find accessibility issues in your pull requests

[MyGet](#)
Artifact and Package Repositories: Hosted NuGet, npm, Bower, Maven, PHP Composer and VSIX feeds and build services

[Codetree](#)
Lightweight project management for GitHub issues

Sider

Detect anti-pattern instances and apply project best practices in your pull requests automatically. Easy and quick setup

Waffle

Automated project management powered by your GitHub issues and pull requests

Better Code Hub

A shared Definition of Done for code quality

Greenkeeper

Real-time notifications about updates and changes for JavaScript dependencies

[View all](#)

Recently added

The latest apps that help you and your team build software better, together.

Slack + GitHub

Connect your code without leaving Slack

Pull Reminders

Slack reminders and metrics for pull requests

CodeFactor

Automated code review for GitHub

Instabug

Instabug is a reliable bug reporting and user feedback SDK that enables testers and users to report issues from within the app

GitHub Learning Lab

Your interactive guide to learning the skills you need without leaving GitHub

Depfu

Automated dependency updates keep your app secure and maintainable

ImgBot

A GitHub app that optimizes your images

GitKraken Glo Boards

Free issue/task tracking boards that sync in real-time with GitHub Issues

[View all](#)

Code quality

Automate your code review with style, quality, security, and test-coverage checks when you need them.

Sider

Detect anti-pattern instances and apply project best practices in your pull requests automatically. Easy and quick setup

Better Code Hub

A shared Definition of Done for code quality

Codacy

Automated code reviews to help developers ship better software, faster

codebeat

Code review expert on demand. Automated for mobile and web

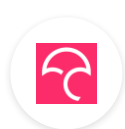

ImgBot

A GitHub app that optimizes your images

Code Climate

Automated code review for technical debt and test coverage

Codecov

Group, merge, archive and compare coverage reports

Coveralls

Ensure that new code is fully covered, and see coverage trends emerge. Works with any CI service

[View all](#)

Continuous integration

Automatically build and test your code as you push it to GitHub, preventing bugs from being deployed to production.

AccessLint

Find accessibility issues in your pull requests

Percy

Continuous visual testing and reviews for web apps

CircleCI

Automatically build, test, and deploy your project in minutes

AppVeyor

Cloud service for building, testing and deploying Windows apps

Cloud 66 Skycap

Skycap is a container native CI/CD tool

Buddy

One-click delivery automation for Web Developers

Travis CI

Test and deploy with confidence

Semaphore

Test and deploy at the push of a button

[View all](#)

Monitoring

Monitor the impact of your code changes. Measure performance, track errors, and analyze your application.

Rollbar

Real-time, full-stack error monitoring and debugging for developers

Airbrake

Real time error monitoring and alerts

LogRocket

Record videos of user sessions with enhanced logging information

Moesif API Insights

API debugging and analytics for REST, GraphQL, and Web3 APIs

Sentry

Real-time, cross-platform crash reporting and error logging

[View all](#)

Project management

Organize, manage, and track your project with tools that build on top of issues and pull requests.

GitKraken Glo Boards

Free issue/task tracking boards that sync in real-time with GitHub Issues

Zube

Agile project management that lets the entire team work with developers on GitHub

Waffle

Automated project management powered by your GitHub issues and pull requests

Codetree

Lightweight project management for GitHub issues

Octobox

Spend less time managing your GitHub notifications

issue.sh

Agile project management inside GitHub, without access to code

ZenHub

Agile Task Boards, Epics, Estimates and Reports, all within GitHub's UI

DeepAffects

Metrics for Team Dynamics and Productivity
